SUMMARY

Passionate Full Stack Developer (backend-focused) with hands-on experience building real-world projects like an ID Card Generator website and a School Management App. Skilled in Java, Node.js, Spring Boot, SQL (MySQL, PostgreSQL), and MongoDB, with a strong foundation in DSA and API development. I enjoy writing clean, maintainable code and solving problems efficiently. Known for being a fast learner with strong communication and teamwork skills, I'm looking to contribute to a product-based team where I can keep improving and deliver meaningful features.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL

Backend Frameworks: Spring Boot, Express.js, Node.js

Frontend Frameworks and Libraries: React.js (Library), Next.js (Framework), Tailwind CSS

Databases: MySQL, PostgreSQL, MongoDB

ORM/ODM: Prisma, Mongoose

Developer Tools: Postman, Git, GitHub, VS Code, IntelliJ IDEA

PROJECTS

ID Card Generator Website   Dec 2025 – Present
Full Stack Development   *Next.js, Prisma, PostgreSQL*
  • Built a web-based platform that generates customizable ID cards with uploaded photos and user-entered details.
  • Implemented secure form validation, image handling, and dynamic real-time ID card preview.
  • Designed clean backend APIs to manage user data and card generation logic.
  • Ensured responsive UI/UX using Tailwind CSS for smooth user interaction.

School Management App   2025 – Present
Full Stack Development   *Spring Boot, Java, Next.js, PostgreSQL*
  • Developed modules for Student CRUD, Teacher CRUD, and Attendance Management.
  • Created REST APIs using layered architecture (Controller – Service – Repository).
  • Designed PostgreSQL schema for structured and scalable school data management.
  • Integrated frontend using Next.js for dashboard, forms, and data views.

EXPERIENCE

Backend Intern   Dec 2025 – Present
AccioJob   *Remote*
  • Working on backend assignments involving Spring Boot, REST APIs, SQL queries, and deployment fundamentals.
  • Practicing DSA and solving backend-oriented problem sets regularly.
  • Gaining hands-on experience in building production-style backend projects.

EDUCATION

Sarju Singh Mahavidalaya   Khairpur, Mirzapur
Bachelor of Arts (B.A.)   *2023*

CERTIFICATIONS

  • Backend Development Certification — AccioJob
